Comments:

Upon thorough investigation, it was very evident and clear that the manuscript titled: "A review of the use of composted municipal solid waste in agriculture" was plagiarized from a manuscript published in another journal with the following DOI: <https://doi.org/10.1016/j.agee.2007.07.004>
The Editor-in-Chief recommended immediate retraction of the said manuscript on 28/12/2021 on the grounds of plagiarism.
